Short Term Consultant- Health Policy and Integrated Planning

National Health Systems Resource Centre (NHSRC) has been set up under the National Health Mission (NHM) as an autonomous registered society, to channelize technical assistance and capacity building support to the states for strengthening the public health system. The NHSRC is also mandated to contribute to health policy/ programme design and evaluation.

Since its inception in 2006, NHSRC has been a repository of knowledge and a center of excellence for its agenda. This organization has professional linkages with a plethora of domestic and international bodies involved in the field of Public Health. There have been a number of personnel who have served with NHSRC and gained invaluable experience enabling them to graduate to next rung of professional ladder. Vast exposure to Ministry of Health and Family Welfare, and its processes is a unique feature of NHSRC.

If you have a commitment to health equity and excellence, here is a unique chance to work with a team committed to shaping the public health landscape in India. The position offers you an opportunity to participate in the process of strengthening health systems, improving health service delivery and enabling positive health outcomes, through hands on implementation assistance at National, State and District levels. Working with a transdisciplinary team, you can discover, adapt, co-create and disseminate solutions to multiple challenges related to service delivery systems, universal primary health care, human resources for health, community processes, health financing, quality of care, public health planning and health promotion. This is an opportunity to support health systems strengthening at scale, learn from district and sub district implementation, undertake knowledge translation, and enable realization of the vision of universal health coverage.
