Consultant – Knowledge Management Division (RRC-NE)

Name of Cluster	Public Health Planning & Evidence, RRC-NE
Reporting to	Director, RRC-NE, Guwahati, Assam
Name of Position	Consultant, Knowledge Management Division
Number of Position	Two
Location	RRC-NE Office, Guwahati

NHSRC is seeking applications from eligible candidates for the position of Consultant, Quality & Knowledge Management Division for its branch office – Regional Resource Centre for Northeastern States (RRC-NE) at Guwahati, Assam.

1. Background

National Health Mission (NHM) is the umbrella program of the Ministry of Health and Family Welfare, Government of India to ensure provisioning of universal health coverage for providing access to equitable, affordable and quality health care services which is accountable and at the same time responsive to the needs of the people. The Mission also aims for reduction of children and maternal mortality as well as population stabilization, gender and demographic balance.

National Health Systems Resource Centre (NHSRC) is a technical support organization under the National Health Mission, Ministry of Health & Family Welfare. NHSRC channelizes required technical assistance for the MoHFW and the States for various tasks. Such requirements are dynamic in nature. For meeting the specific needs of eight NE States, Regional Resource Centre – NE (RRC-NE) at Guwahati functions as branch office of NHSRC. The team at RRC-NE is headed by the Director with technical teams for each area.

Work at the NHSRC/RRC-NE is organized around seven divisions, namely – Community Processes & Comprehensive Primary Care, Healthcare Financing, Healthcare Technology, Human Resources for Health, Public Health Planning, Public Health Administration and Quality & Patient Safety.

If you have a commitment to health equity and excellence, here is a unique chance to work with a team committed to shaping the public health landscape in India. The position offers you an opportunity to participate in the process of strengthening health systems, improving health service delivery and enabling positive health outcomes, through hands on implementation assistance at national, state and district levels. Working with a trans-disciplinary team, you can discover, adapt, co-create and disseminate solutions to multiple challenges related to service delivery systems, universal primary health care, human resources for health, community processes, health financing, quality of care, public health planning and health promotion. This is an opportunity to support health systems strengthening at scale, learn from district and sub district implementation, undertake knowledge translation, and enable realization of the vision of universal health coverage.

2. Objective

As Consultant, Knowledge Management Division at regional level, the overall objective is to provide requisite technical support to build capacity for undertaking research activities.

3. Scope of Work&Key Responsibilities

- a. Provide technical assistance to undertake research activities under Knowledge Management Division (KMD).
- b. Support the activities as per Research including Implementation Research for Health Systems Strengthening (IR HSS) and coordinate activities viz. research priority, setting workshops, setting annual research agenda etc.
- c. Providing technical inputs to research studies/protocols as and when required.
- d. Support review and analysis of published and grey literature and data available through various sources on a periodic basis, including National/State/Districtlevel survey, HMIS, Sustainable Development Goal indicators and Universal Health Coverage indicators.
- e. Support in creating platform for partners/stakeholders to share and create evidence-based knowledge, enabling the uptake of information to strengthen the health systems interventions.
- f. Ensure availability of information from available data source in an early transferrable and usable form, based on the requirement of the Knowledge Management and other divisions. Keep divisions abreast of latest findings on key health systems data and studies including SDG and UHC indicators.
- g. Support in activities pertaining to data collection, collation, analysis, and report writing in coordination with Implementation Research for Health Systems Strengthening (IR-HSS), KMD.
- h. Identify best practices and innovations within states and districts and support in documentation. Undertake review of literature and stay up-to-date on current trends in health systems strengthening.
- i. Ensure timely and high-quality responses to MoHFW and Parliament Questions pertaining to the division.
- j. Support Knowledge Management Division on all administrative and technical matters.
- k. Support Executive Director, NHSRC/Director, RRC-NE in other assignments as and when required.

4. Output

Timely accomplishment of task and responsibilities and regular reporting to the Director, RRC-NE at the end of every month.
